## INTRODUCING OUR 200HR CERTIFIED ENERGY HEALING TRAINING PROGRAM

We're thrilled to announce this advanced EHT-200 Energy Healing Training. The training is available to students who have successfully completed our EHT-100 course and is intended for those wishing to substantially deepen their self-practice or to expand skills for professional use as certified energy healing practitioners.

Your self-perception, energy system and healing potency will be significantly upgraded as we move progressively through the energy system and further explore the possibilities inherent in energy healing.

For those deeply committed to their self-transformation, the advanced modules at this level of our training bring intense focus to the heart of healing. A cornerstone of the Field Dynamics' model is the view that healing and awakening are ultimately one and the same. The orientation of Field Dynamics in facilitating self-realization with others is that we can greatly empower and assist with creating the conditions whereby an individual's unique Awakening Process can occur naturally, as appropriate.

## ADVANTAGES OF AN ONLINE TRAINING

---

*There are numerous benefits to experiencing this training online over the course of six months...*

**TIME TO DIGEST** Between protocols and processing, the training material takes time to integrate. This 6 month format is ideal for sustained organic rebalancing.

**ONGOING CONTACT** Provides a long-term supportive community ideal for deeper, process-oriented healing - quite different to a short in-person immersion training.

**THE NEW NORMAL** In our ever-changing circumstances healing work is increasingly relevant - this online format enables remote learning and provides the skills necessary for both distance and in-person healing.

**REDUCED COSTS** Negating expenditure on travel, accommodations and so on. If the same training were offered in person, the cost to the attendee would be approximately double.

## YOUR LEAD FACILITATOR KEITH PARKER...

---

*Keith has a truly unique gift to understand, illuminate and see beyond what our human bodies can know, and help guide the energies towards a place of wholeness and integration.*

*I have been able to process patterns of behaviour that have seemed unknowable until our work together, and made changes happen in my life that had seemed impossible.*

*Keith has a way of working that allows you to arrive exactly as you are with no judgements or criticisms, and to take whatever is present and speak to it matter of factly and without fear.*

Client testimonial

**Keith is an adept facilitator and teacher of consciousness transformation.**

An extensive background in the healing arts combined with his unusual extrasensory perception has provided a unique skill-set for developing Field Dynamics - an innovative, contemporary energy healing modality.

# FIELD DYNAMICS

Initially trained in contemplative science, Keith used meditation as a vehicle to understand and refine subtle states of consciousness. Over the following decade he developed comprehensive expertise in the healing arts including movement, breathwork, bodywork, energy work and other disparate disciplines. During this intensive period, Keith had a series of breakthrough spiritual experiences enabling him to see and feel the human energy field with remarkable clarity.

As Cofounder of Field Dynamics he is committed to facilitating self-transformation and fostering dialogue resolving science and spirituality. Teaching with clarity and compassion, he values the present moment as the greatest source of wisdom.

## WHAT PEOPLE ARE SAYING...

*“I have immersed myself in the study of meditation and self-improvement for 20 years and undoubtedly the Field Dynamics’ EHT-100 course has helped me make breakthroughs in my practice that no other program has made possible. The program works with a diverse range of techniques that I believe offers new perspectives and tools to even the most seasoned of practitioners. Keith and Christabel are working at the cutting edge of subtle energy.”*

*“This EHT-100 is taking my 22 years of searching, experience, training and education and integrating it into one place - that is exciting! Keith is able to take knowledge from intangible to tangible and articulate it in a way that brings about a deep level of integrated understanding. This training is researched, intelligent, experiential and extremely fun I am so grateful to have come across it. It is life changing.”*

*“This course has helped me to understand how everything in our lives is energetic and interconnected. I've opened my mind to new perspectives and my heart to new experiences. I've also become more grounded, focused and compassionate. I've met amazing people from over the world. Energy healing and meditation has become part of my daily life and I wouldn't want to have it any other way - it truly is magic.”*

# FIELD DYNAMICS

*“I signed up expecting to gain skills to use with my coaching clients - it didn't take long to realize the course is a deep dive into my own energetic healing! Keith provides in-depth material and I'm learning subject matter never touched on in other energy classes I have taken. The live, online class format is great and allows for people from around the globe to connect and share in the group synergy. I felt at home in the small group atmosphere right from the start. Since learning Field Dynamics I have moved into a new level of practice.”*

*“I am a retired physician and have long engaged with meditation as a refuge for both peace and healing. The course is at a professional level, with exquisite attention to every detail. Keith is brilliant in his delivery of the material as well as a kind and perceptive soul. The group is also wonderful as a collective - we break off into smaller units to work on the material together, which is fun and engaging. In this day and age having an online platform works. It would be wonderful to do this in-person but that is balanced by the surprising intimacy I find with the online experience and the format provides the ease of working from home.”*

*“To say this course changed my life would be an understatement. I feel completely transformed. The amount of personal growth and spiritual development that is facilitated with this work is beyond the norm. I'm so grateful for this transformational experience.”*

# FIELD DYNAMICS

## MISSION & VALUES

---

Our mission is to be a driving force in the dissemination of energy healing as a universally accessible practice.

More broadly, we are committed to furthering the dialogue concerning the nature of consciousness - with the view that science and spirituality are complementary *not* contradictory.

**Based on the core values of integrity, equality, transparency and personal responsibility, FIELD DYNAMICS is non-dogmatic and universal in ethos and approach. We believe the cornerstone for collective change is individual transformation. We are interested in what unites us not what divides us. Ultimately, we are all one.**

# FIELD DYNAMICS

## PRINCIPLES OF HOLISTIC HEALING & SELF-REALISATION

*A healer is one who seeks to know their true nature, realising their intrinsic wholeness in the process.*

Connecting to this source of wholeness is how healing occurs. In truth the healer doesn't heal, only acting as a conduit or channel for use as catalyst to others on their unique journey.

When the mind and body are understood and accepted the spirit integrates - synthesising a mind, body and spirit which moves amongst the dimensions with clarity and ease.

# FIELD DYNAMICS

## WE'RE ALL ABOUT THE SCIENCE OF THE FIELDS.

*At the forefront of what's possible,  
this is the future of wellness.*

We offer innovative services in contemporary energy healing. FD is based on the underlying principles of a field-based reality, where mind and matter are in a dynamic equilibrium, creating what we experience as the present moment.

Fields are not limited to the individual, but are part of broader constellations of core-beliefs, identity, family and the collective. Understanding this dynamic is crucial to managing the relationship between your inner and outer worlds....

Beyond matter, reality is comprised of energy - electromagnetic fields in constant fluctuation like waves in the ocean.

Congruent with cutting-edge science, FD is an example of just what's possible in the emerging science of consciousness.
